NEXUS® Pro Controllers

Secure, Efficient, & Versatile

4 I/O Controller

8 I/O Controller

4 I/O & 8 I/O AC NEXUS® Pro Controllers

NEXUS® Pro is a standalone or communicating controller for up to 4 or 8 valves, easily connecting to I-CON flush, lavatory, and shower valves. When networked with ENVISAGE® Pro, it enables remote control, real-time monitoring, alerts, and easy adjustment across the facility.

NEXUS® Pro+ Features

- Temperature & pressure capability for reports & alerts
- Auxiliary port to connect to 3rd party device
- Port Swap Monitoring Kit, for instant port swap detection

NEXUS® Pro Controllers

Secure, Efficient, & Versatile

Product Specifications

- Latching water-resistant enclosure with conformal coated components.
- Securable with an 8-32 security screw.
- Designed for penal use and other vandal-prone areas to reduce potable water consumption.
- Ability to be remotely located up to sixty (60) feet from associated fixtures.
- Adjustable run time, lockout time, activation before lockout.
- Ability to link inputs to a single output for outside cell activation or other applications.
- Onboard real-time clock for accurate time-keeping.
- Lockout and daily lockout capable.
- Color-coded LED activation indications on sensors and controllers.
- Maintenance mode for control when working on the system.
- Rebuild alerts based on activation count or time interval.
- Network capable through wired or wireless proprietary communication protocols.
