- Air-circulating, self-draining soap dish
- 1-1/2" NPT male fitting for removable waste
- 4 anchoring locations
- Removable bottom panel secured with tamper-resistant fasteners

Part No. 100712 : AF

Fixture may be featured with available options.

► Description

I-CON lavatories are seamlessly welded, 14-gauge type 304 stainless steel. Exposed surfaces have satin finishes. The fixture does not require a wall opening and chase area for installation and maintenance. The lavatory is furnished with an oval basin, integral strainer, 4" high backsplash, and an air-circulating, self-draining soap dish. Exposed fasteners are tamper-resistant stainless steel.

► Recommended I-CON Intelligent Control System

The system includes low voltage, water-resistant controllers; waterproof, stainless steel actuators; and direct-acting solenoid valves with no diaphragms. The I-CON manifold lavatory valve allows for one (1) hot and cold water supply for up to four (4) lavatories. Its advanced design allows for 0.5 GPM without a rubber flow restrictor. The I-CON System can be configured as a standalone or communicating unit linked to our touchscreen PC technology, which has the capability to stop flooding and abuse.

► Accessories & Options
