

ENVISAGE® Signal Booster

Part No. 101044

► Description

The ENVISAGE® Signal Booster is a one IN, four OUT signal booster. It is needed when a single segment of an ENVISAGE® network has a total of more than 32 NEXUS® controllers. It breaks a single segment into four unique segments all of which can handle 32 NEXUS® controllers, effectively increasing the total to 128 (32 per OUT). Additionally, while adhering to the limit, all of our signal boosters can be used in any combination to produce a network.

Specifications

- New Water Resistant Enclosure
- Specifically designed for penal use and other vandal prone areas
- 24 VAC power with low power consumption
- Power switch on the exterior of the housing
- Power surge protection and voltage spike protection
- Power LED
- Data LEDs illuminate at each port to show data is traveling OUT into the port
