

NEXUS® Pro Wireless Daughterboard

Part No. 104138

► Description

The NEXUS® Pro Wireless Daughterboard is designed for I-CON's NEXUS® Pro 1-I/O, 4-I/O, or 8-I/O AC controllers. It easily converts a standalone NEXUS® Pro controller into a connected controller capable of connecting to the ENVISAGE® Pro Water Management System for maximum control of plumbing fixtures over a secure, dedicated wireless network.

► Features

- Plugs easily into the NEXUS® Pro 1-I/O, 4-I/O, or 8-I/O AC controller
- LED indication of communication status
- ENVISAGE® Pro networks can be formed with a combination of wired and wireless technologies
- Operates in the 2.4GHz frequency band with the following features:
 - Secure, government-strength AES encryption
 - Automatic network formation: Multiple networks can be created without interfering with each other
 - Will not interfere with other wireless systems such as Wi-Fi or 2-way radios

► Accessories

See Accessories Section of the I-CON catalog or contact our Customer Service Team for details.

Recommended Specification

The **104138 NEXUS® Pro Wireless Daughterboard** converts a standalone NEXUS® Pro controller into a connected controller capable of connecting to the ENVISAGE® Pro Water Management System. It can be easily plugged directly into the main control board without the use of tools. The daughterboard provides LED indications for communication statuses. It utilizes proprietary communication with encryption and will not interfere with Wi-Fi or 2-way radio communication.
