Intelligent Water Conservation™

The COBALT® Exposed Manual Flush Valve is designed for maximum performance and greater reliability than a diaphragm or piston valve.

101105 Series

SIMPLE • POWERFUL • ACCURATE

Water Closets

101105 : 3010

Exposed Manual Flush Valve for Water Closets; Top Spud; 11.5" Rough In

101105 : 3015

Exposed Manual Flush Valve for Water Closets; Top Spud; 16" Rough In

101105 : 3020

Exposed Manual Flush Valve for Water Closets; Top Spud; 24" Rough In

101105 : 3025

Exposed Manual Flush Valve for Water Closets; Top Spud; 27" Rough In

101105 : 3030

Exposed Manual Flush Valve for Water Closets; Rear Spud; 11.5" Rough In

101105 : 3035

Exposed Manual Flush Valve for Water Closets; Rear Spud; 16" Rough In

101105 : 3040

Exposed Manual Flush Valve for Water Closets; Rear Spud; 24" Rough In

101105 : 3045

Exposed Manual Flush Valve for Water Closets; Rear Spud; 27" Rough In

Water Closets & Urinals

101105 : 3000

Exposed Manual Flush Valve for Urinals & Water Closets; Less Vacuum Breaker Assembly; Less Angle Stop

101105 : 3005

Exposed Manual Flush Valve for Urinals & Water Closets; Less Vacuum Breaker Assembly

Urinals

101105 : 3050

Exposed Manual Flush Valve for Urinals; 3/4" Top Spud; 11.5" Rough In

101105 : 3055

Exposed Manual Flush Valve for Urinals; 1-1/4" Top Spud; 11.5" Rough In

Flush Volume & Bypass Color
