

ENVISAGE® Pro

The ultimate companion to the NEXUS® Pro

ENVISAGE® Pro is an advanced water management system offering full control over plumbing fixtures and allow facility wide pressure and temperature monitoring. It's wireless setup simplifies installation, while real-time analytics provide actionable water usage reports, enhancing security and sustainability. It's the trusted solution for correctional facilities.

Facility Specific Mapping

Control with a wired or wireless network

Start lockouts; prevent cell flooding

Schedule to prevent unwanted activation

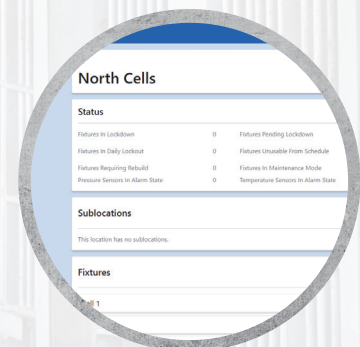

Operate fixtures remotely

Lockdowns with ENVISAGE® Pro make contraband searches and inmate extractions easier and safer. Custom facility maps provide visual management of fixtures.

ENVISAGE® Pro

- User accounts can be created based on role or location
- Login via any computer connected to the LAN
- Analytics intelligence to track and monitor water usage and fixture abuse
- Multiuser login capability
- Controller configuration and port linking
- View all devices on map for easy maintenance
- Actionable insights to improve water efficiency

ENVISAGE[®] Pro

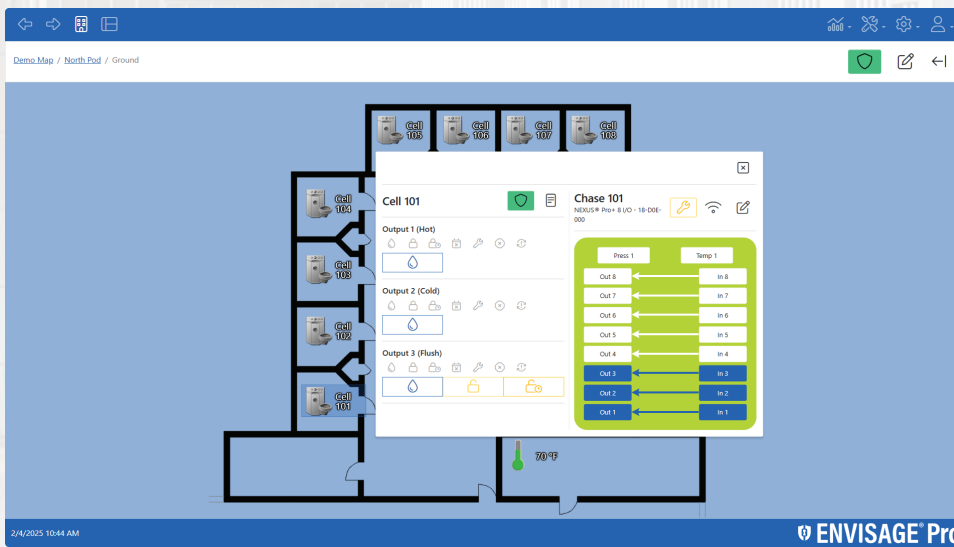

The ultimate companion to the NEXUS[®] Pro

Scheduling

Up to 16 Usability Schedules can be added to each controller. Schedules can be set per location, per device or per output type. Even offline the controller will follow the schedules to only permit usage while in the allotted time windows.

Map Device Modal

From this view, you can activate the fixture, remove a lockout, Lockdown the cell, get fixture and device information, and a lot more.
